

Holy Water

I know it don't seem it
But I didn't mean it
Let the truth be told
The difference you see
Between the birds and bees
Growing up and growing old

I drank your water your holy water
It made me feel so bad
In that water your poisoned water
I lost everything I had

That night you came to me
A distant memory
From a long time ago
You said you had one regret
One thing you can't forget and
I could help you let it go

I drank your water your holy water
It made me feel so bad
In that water your poisoned water
I lost everything I had

Maybe in another time
We could drink the wine
Maybe in another life
You could be mine
But not this time

Sometimes letting go
Is learning to say no

I drank your water your holy water
It made me feel so bad
In that water your poisoned water
I lost everything I had
