

Victoria

It's a drag but it's all right
I can easily change the way I'm feeling tonight
I've got a picture of you
It's a painted memory
You on the rocks and the sky behind you so blue
And your mysterious smile

I was so true to Victoria
We count the ships in Victoria
The beauty and the sun in the sky really blew me away

Now I know what the singer meant
I turn the dial on the late night radio
I found a piece of heaven
I can make good time if I'm driving but
I'll be driving, I'll be driving all night
To be home by 7

I was so true to Victoria
We count the ships in Victoria
The beauty and the sun in the sky really blew me away

It's not my problem just my dumb luck
Is there anybody out there really gives a fuck about this life, this man about this boy

I was so true to Victoria
We count the ships in Victoria
The beauty and the sun in the sky really blew me away
