

## **Kings and Queens**

From a black limousine, table spreads velvet green  
Straight to the cards those kings and queens  
White dice pink champagne snake eyes roll again  
And then go back to the cards those kings and queens

Set 'em up come on up folks place your bets  
Where the sun never shines and it never sets  
Where the cards never lie and they never forget  
You can bet all you have when it's all you have left.

Spirits up, chips are down.  
Drinks are free, flesh a pound  
So you go back to the cards those kings and queens

Marilyn at Palm Springs and at night Elvis sings  
You know that they are kings and queens  
Roll the dice snake eyes one armed thief rolls his eyes  
So you go back to the cards those kings and queens

Set 'em up come on up folks place your bets  
Where the sun never shines and it never sets  
Where the cards never lie and they never forget  
You can bet all you have when it's all you have left.

Spirits up, chips are down.  
Drinks are free, flesh a pound  
So you go back to the cards those kings and queens  
I wanna be a king or queen  
I wanna be, I wanna be, I wanna be those kings and queens
